Core Competencies

Full Service Dental Laboratory

- ✓ e.Max & Full Zirconia Crowns
- ✓ Porcelain Fused to Metal Crowns & Bridges
- ✓ Custom Implant Abutments & Crowns
- ✓ Replace missing or broken teeth
- ✓ Repair full/partial dentures
- ✓ Reline full/partial dentures
- ✓ Repair cracks, chips clasps & flanges

Our on-site milling center includes:

- ✓ Amann Girrbach Ceramill Motion 2
- ✓ Roland DWX-50

We accept all .stl files including Cerec®, Cadent iTero and Trios®. All digital files are received in the lab, designed, milled and finished on-site by our dental technicians.

We offer a full service removable department specializing in:

- ✓ Full and partial dentures
- ✓ Overdenture and hybrid dentures
- ✓ Flexible partials
- ✓ Night guards
- ✓ Cast partials
- ✓ Relines and repairs

Chairside assistance is available for implant insertions & impressions.

We provide complimentary custom shading and staining for highly aesthetic cases as well as adjustments for both fixed and removable cases.

Custom Shading

Using the Vita Easyshade® compact, the technician will use the machine to read the patient's adjacent tooth and take photos with shade tabs for reference. This will give our technicians a blueprint of the patient's natural tooth giving their restoration the most natural look possible.

Custom Staining

Using a palette of colors characterizations will be added, baked in an oven at 1700 degrees and then cooled. We will then send the patient back to your practice with their case for permanent cementation.

Differentiators

- ✓ **Made In The USA:** All products are proudly made in the USA; we do not outsource our products and we have been in business for over 20 years.
- ✓ **Same Day Repairs & Relines:** PDL offers same day repairs and relines on select dentures and partials to local offices within our area and next day repairs to offices beyond that.
- ✓ **Webinars:** To improve communication between practices and the lab, we often have webinars or online meetings with offices. These meetings enable both the doctor and lab technicians to view the design of a case online, address any questions or concerns each may have
